CTG NAMED TO *HEALTHCARE INFORMATICS* ANNUAL RANKING OF THE TOP 100 HEALTHCARE IT PROVIDERS

BUFFALO, N.Y. — July 17, 2008 — CTG (NASDAQ: CTGX), an international information technology (IT) solutions and services company, announced today that it was named by *Healthcare Informatics* to its annual ranking of the 100 largest healthcare IT providers, the Healthcare Informatics 100 (HCI 100). CTG was named to the HCI 100 list based on its 2007 revenue for the healthcare provider market. In addition to other large healthcare IT consulting firms, the list includes the leading hospital information systems companies and other healthcare-related software firms. The HCI 100 list appears in the June 2008 issue of *Healthcare Informatics*, a leading CIO-level publication published by the Vendome Group, that specializes in issues of system selection, project management, enterprise integration, change management, and budgeting for healthcare organizations.

“CTG is pleased to again be recognized by *Healthcare Informatics* as one of the 100 largest providers of healthcare IT,” said James R. Boldt, CTG Chairman and Chief Executive Officer. “Our long-time focus on the healthcare market enables us to provide industry-specific technology and business solutions to a large and growing market which has unique and highly specialized needs. CTG’s success at supporting the needs of the healthcare industry is the major contributor to the growth we are currently experiencing.”

CTG supports the healthcare provider market through its business unit, CTG HealthCare Solutions (CTGHS), which provides clinical, financial, and operational IT and business solutions to healthcare institutions, physician practices, and related organizations. Additionally, CTG serves the healthcare payer and the life sciences market through separate practices within its healthcare business. Collectively, these businesses contributed approximately 25% to CTG’s total 2007 revenue of \$325.3 million.

Healthcare Informatics compiled the HCI 100 list based on 2007 healthcare IT revenue from companies supporting the technology needs of healthcare organizations. For more information about the HCI 100, visit www.healthcare-informatics.com.

About CTG and CTGHS

Backed by over 40 years' experience, CTG provides IT solutions and services to help Global 2000 clients focus on their core businesses and use technology as a competitive advantage to excel in their markets.
